

(vii) Prohibited from the Palestinian controlled portions of the West Bank and Gaza Strip; otherwise, must be accompanied by a phytosanitary certificate which declares that the melons were grown in approved areas in the Arava Valley or the Kadesh-Barnea area of Israel, the fields where the melons were grown were inspected prior to harvest, and the melons were inspected prior to export and found free of pests.

(viii) Prohibited from the Palestinian controlled portions of the West Bank and Gaza Strip; otherwise must be accompanied by a phytosanitary certificate which declares that only tomato varieties 111, 121, 124, 139, and 144 are included in the consignment and the tomatoes were packed into fruit-fly-proof containers within 24 hours after harvesting.

(ix) Only precleared consignments are authorized. The consignment must be accompanied by a PPQ Form 203 signed by the APHIS inspector on site in the exporting country.

(x) Must be accompanied by a phytosanitary certificate issued by the national plant protection organization of the exporting country that includes a declaration certifying that the products were grown and packed in the exporting country.

(xi) Must be accompanied by a phytosanitary certificate issued by the national plant protection organization of the exporting country that includes a declaration certifying that the products were grown in a greenhouse in the exporting country.

(xii) Must be accompanied by a phytosanitary certificate issued by the national plant protection organization of the exporting country that includes a declaration certifying that the products were grown in a greenhouse in the exporting country on Honshu Island or north thereof.

(xiii) Only precleared consignments that have been treated with an approved treatment listed in 7 CFR part 305 are authorized. The consignment must be accompanied by a PPQ Form 203 signed by the APHIS inspector on site in the exporting country.

(xiv) Must be accompanied by a phytosanitary certificate issued by the national plant protection organization of Israel that declares “These tomatoes

were grown in registered greenhouses in the Arava Valley of Israel.”

(xv) Must be treated with an approved treatment listed in 7 CFR part 305.

(xvi) Must be accompanied by a phytosanitary certificate issued by the national plant protection organization of the country of origin and with an additional declaration stating that the fruit is free from *Cnephasia jactatana*, *Coscinoptycha improbana*, *Ctenopseustis obliquana*, *Epiphyas postvittana*, *Pezothrips kellyanus*, and *Planotortrix excessana*; must undergo a port of entry inspection with a biometric sampling of 100 percent of 30 boxes selected randomly from each consignment; and the randomly selected boxes must be examined for hitchhiking pests.

[24 FR 10788, Dec. 29, 1959, as amended at 72 FR 48547, Aug. 24, 2007]

§§ 319.56–14—319.56–19 [Reserved]

§ 319.56–20 Apples and pears from Australia (including Tasmania) and New Zealand.

Apples and pears from Australia (including Tasmania) and New Zealand may be imported only in accordance with this section and all other applicable provisions of this subpart.

(a) *Inspection and treatment for pests of the family Tortricidae.* An inspector must take a biometrically designed sample from each lot of apples or pears that are offered for entry into the United States. If inspection of the sample discloses that pests of the family Tortricidae (fruit-leaf roller moths) are not present in the lot sampled, the fruit may be imported without treatment. If any such pests are found upon inspection, the lot must be treated with methyl bromide as prescribed in part 305 of this chapter.

(b) *Treatment of apples and pears from Australia for fruit flies.* (1) Apples from Australia (including Tasmania) may be imported without treatment for the following fruit flies if they are imported from an area in Australia that meets the requirements of § 319.56–5 for pest freedom: Mediterranean fruit fly (*Ceratitis capitata*), the Queensland fruit

§ 319.56–21

fly (*Bactrocera tryoni*), *Bactrocera aquilonis*, and *B. neohumeralis*.

(2) Pears from Australia (including Tasmania) may be imported without treatment for the following fruit flies if they are imported from an area in Australia that meets the requirements of § 319.56–5 for pest freedom: Mediterranean fruit fly (*Ceratitidis capitata*), the Queensland fruit fly (*Dacus tryoni*), *Bactrocera jarvisi*, and *B. neohumeralis*.

(3) Apples and pears from Australia that do not originate from an area that is free of fruit flies must be treated for such pests in accordance with part 305 of this chapter. If an authorized treatment does not exist for a specific fruit fly, the importation of such apples and pears is prohibited.

§ 319.56–21 Okra from certain countries.

Okra from Brazil, Colombia, Ecuador, Guyana, Mexico, Peru, Suriname, Venezuela, and the West Indies may be imported into the United States in accordance with this section and all other applicable provisions of this subpart.

(a) *Importations into pink bollworm generally infested or suppressive areas in the United States.* Okra may be imported into areas defined in § 301.52–2a as pink bollworm generally infested or suppressive areas, provided the okra is imported in accordance with the requirements of § 319.56–3. Upon entry into the United States, such okra is immediately subject to the requirements of Subpart—Pink Bollworm (§§ 301.52 through 301.52–10) of this chapter.

(b) *Importations into areas south of the 38th parallel that are not pink bollworm generally infested or suppressive areas.*

(1) During December 1 through May 15, inclusive, okra may be imported into areas of Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, Nevada, North Carolina, South Carolina, Tennessee, or any part of Illinois, Kentucky, Missouri, or Virginia south of the 38th parallel subject to the requirements of § 319.56–3.

(2) During May 16 through November 30, inclusive, okra may be imported into areas of Alabama, Arkansas, Florida, Georgia, Louisiana, Mississippi, Nevada, North Carolina, South Caro-

7 CFR Ch. III (1–1–08 Edition)

lina, Tennessee, or any part of Illinois, Kentucky, Missouri, or Virginia south of the 38th parallel if treated for the pink bollworm in accordance with an approved treatment listed in part 305 of this chapter.

(c) *Importations into areas north of the 38th parallel.* Okra may be imported into Alaska, Colorado, Connecticut, Delaware, Hawaii, Idaho, Indiana, Iowa, Kansas, Maine, Maryland, Massachusetts, Michigan, Minnesota, Montana, Nebraska, New Hampshire, New Jersey, New York, North Dakota, Ohio, Oregon, Pennsylvania, Rhode Island, South Dakota, Utah, Vermont, Washington, West Virginia, Wisconsin, Wyoming, the District of Columbia, or the U.S. Virgin Islands, or any part of Illinois, Kentucky, Missouri, or Virginia, north of the 38th parallel, subject to the requirements of § 319.56–3.

(d) *Importations into areas of California that are not pink bollworm generally infested or suppressive areas.*

(1) During January 1 through March 15, inclusive, okra may be imported into California subject to the requirements of § 319.56–3.

(2) During March 16 through December 31, inclusive, okra may be imported into California if it is treated for the pink bollworm in accordance with an approved treatment listed in part 305 of this chapter.

(e) *Imports from Andros Island of the Bahamas.* Okra produced on Andros Island, Commonwealth of the Bahamas, may be imported into the United States in accordance with § 319.56–3.

§ 319.56–22 Apples and pears from certain countries in Europe.

(a) *Importations allowed.* The following fruits may be imported into the United States in accordance with this section and all other applicable provisions of this subpart:

(1) Apples from Belgium, Denmark, France, Germany, Great Britain, Italy, the Netherlands, Northern Ireland, Norway, Portugal, the Republic of Ireland, Spain, Sweden, and Switzerland;

(2) Pears from Belgium, France, Great Britain, Italy, the Netherlands, Portugal, and Spain.
